Objective

To leverage my technical skills in Oracle APEX, SQL, PL/SQL, Database Administration (DBA), Oracle Forms, Oracle Reports, and front-end technologies such as HTML and CSS to design and develop secure, efficient, and scalable applications. I aim to contribute to organizational growth by delivering high-quality solutions that enhance business processes, support effective team collaboration, and ensure long-term system reliability.

Projects

3/2025 - 12/2025

Sales & Distribution Management System

Designed and developed a full-featured Sales & Distribution Management System to automate and manage end-to-end sales operations. The system supports order processing, purchase, inventory control, customer management, payments, and financial tracking through an intuitive web-based interface.

Role : Led the team while developing the system, including UI/UX and ERD design.

Tools & Technologies :

- **Oracle APEX (v24.2)**
- **Reports: BI Publisher**
- **HTML / CSS for Custom Reports**

Special Features

- **Due Collection & Customer Outstanding Management**
- **Real-time Stock & Inventory Tracking**
- **Expense Management System**
- **Advance Payment Handling**
- **Order-wise and Customer-wise Financial Summary**

Sales & Distribution Management System (Forms Based)

Developed a desktop-based Sales & Distribution Management System to handle end-to-end sales operations, including order processing, inventory control, and customer management. The system improved data accuracy, reduced manual work, and ensured smooth operational workflows in an enterprise environment.

Role: Led the team through system development, focusing on UI/UX and ERD design.

Tools & Technologies:

- **Database : Oracle database 19c**
- **Frontend: Oracle Forms 11g**
- **Reports:Oracle Reports 10g**

Special Features :

- **Structured sales and inventory control system supporting order entry, stock adjustments, and customer records**
- **Real-time Stock & Inventory Tracking**
- **Purchase & Expense Management System**
- **Centralized data handling to maintain consistency and reduce operational errors**
- **Reliable reporting to support operational control and business analysis.**
